## ENVIRONMENTAL STEWARDSHIP

## SETTING AMBITIOUS TARGETS

AbbVie works diligently to protect the environment across our value chain—from sourcing of raw materials through manufacturing and distribution to use and disposal of our products by consumers and healthcare providers.

AbbVie has set 2025 aggressive targets to reduce our environmental footprint and support global initiatives, including Sustainable Development Goal 13. These absolute reduction targets are over a 2015 baseline.

## OUR 2025 GOALS

Absolute over a 2015 baseline

#### EMISSIONS

Reduce total CO<sub>2</sub>e emissions (Scope 1 and Scope 2 market based) by 25%.

### RENEWABLE ENERGY

Achieve a renewable energy consumption target of 50% by increasing the percentage of electricity purchased from renewable sources (excluding leased offices).

## WATER

Reduce water withdrawal by 20% including non-contact cooling water.

## WASTE

Reduce total hazardous and non-hazardous waste by 20%.\* Achieve 50% recycled waste for hazardous and non-hazardous waste combined.\*

## LOOKING AHEAD

We recognize the need to protect the environment for future generations. That's why we've set long-term **goals for 2035** (over a 2015 baseline).

#### EMISSIONS

Reduce total CO₂e emissions (Scope 1 and Scope 2 market based) by 50%. Purchase 100% electric energy from renewable resources.

# j.

WATER Reduce total water withdrawal by 50% including non-contact cooling water.

WASTE Achieve zero-waste-tolandfill at all AbbVie sites.

50%

\*Excluding construction and demolition waste

## CLIMATE CHANGE

We are committed to addressing climate change by reducing our direct impacts from manufacturing, and by making a positive difference in managing indirect impacts across our value chain.

ESTIMATED REDUCTION IN CO2e EMISSIONS AT ONE SITE BY INSTALLING A DEMAND FLOW SYSTEM TO OPTIMIZE CHILLERS IN 2015

REDUCTION IN TOTAL CO2e EMISSIONS, NORMALIZED TO SALES 2013-2015\*

ISO 50001 CERTIFIED: DEMONSTRATED CONTINUOUS IMPROVEMENT IN ENERGY SYSTEMS AND REDUCED ENERGY CONSUMED AND CO2e EMISSIONS GENERATED. ALL SITES ON TRACK TO BE CERTIFIED BY 2018.

## WATER USAGE

We know the importance of access to clean water and sanitation. We are committed to managing our impact on this vital resource. Water is an essential component of many of our products and manufacturing processes.

IN WATER USAGE IN ONE YEAR AT A MANUFACTURING SITE BY REDESIGNING ITS WATER SOURCING

**REDUCTION IN GLOBAL WATER** 22% INTAKE, 2013-2015 NORMALIZED TO SALES, EXCLUDING NON-CONTACT **COOLING WATER\*** 

## ABBVIE HELPS PROTECT THE ENVIRONMENT

Solar panels at our site in Ludwigshafen, Germany, contribute to our renewable energy goals.

## WASTE MANAGEMENT AND PRODUCT STEWARDSHIP

AbbVie is committed to responsible product stewardship and to appropriate management and control of waste. We work diligently to reduce or eliminate existing waste streams.
